# **Riggs Crossing Senior Residences**

307 Riggs Road NE, Washington, DC 20011

#### **About this Location**

Riggs Crossing is a new wood-frame, fully affordable 4-story building consisting of 93 units for residents ages 55+ earning at or below 30% of the Median Family Income (MFI), or at or below 50% of MFI. Ten units are permanent supportive housing for seniors coming out of homelessness. The building includes ground floor retail space and underground parking. Residents enjoy access to transit including the Fort Totten Metro station, retail, and recreational amenities, enabling older adults to age in place.

### **Building and Apartment Features**

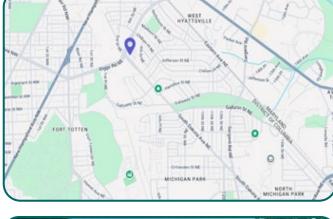

True Ground intentionally incorporates resident feedback into the development process to effectively serve resident needs. At Riggs Crossing, senior residents at other True Ground communities informed the design via focus groups. They encouraged features such as private balconies, open area hard flooring, and in-residence laundry. The development features community amenity space and onsite resident services. The building is conveniently adjacent to grocery and retail amenities and within walking distance to Fort Totten Metro.
